

encodement

cybernetic flowcycle symbiosis

metaconstructs

binding element (vector is superposition)

vector displacement basics

0

red 0 is a normalisation of **vector**
being **representation** as an **organism**

binding element (micro is minima)

low displacement basics

0

green _ is a statefunction amplitude of **low**
being **micro** as a **mechanism**

metadata micro notifier

information travel creation

binding element (macro is maxima)

high displacement basics

0

blue ^ is a statefunction amplitude of **high**
being **macro** as an **object**

interaction macro identifier

salience arrival archetype

binding element (events are time)

time displacement basics

green X is a coordinate axis of **time**
being **events** as a **process**

binding element (experiences are emotion)

emotion displacement basics

0

pink Y is a coordinate axis of **emotion**
being **experiences** as an **identity**

binding element (perspectives are projection)

projection displacement basics

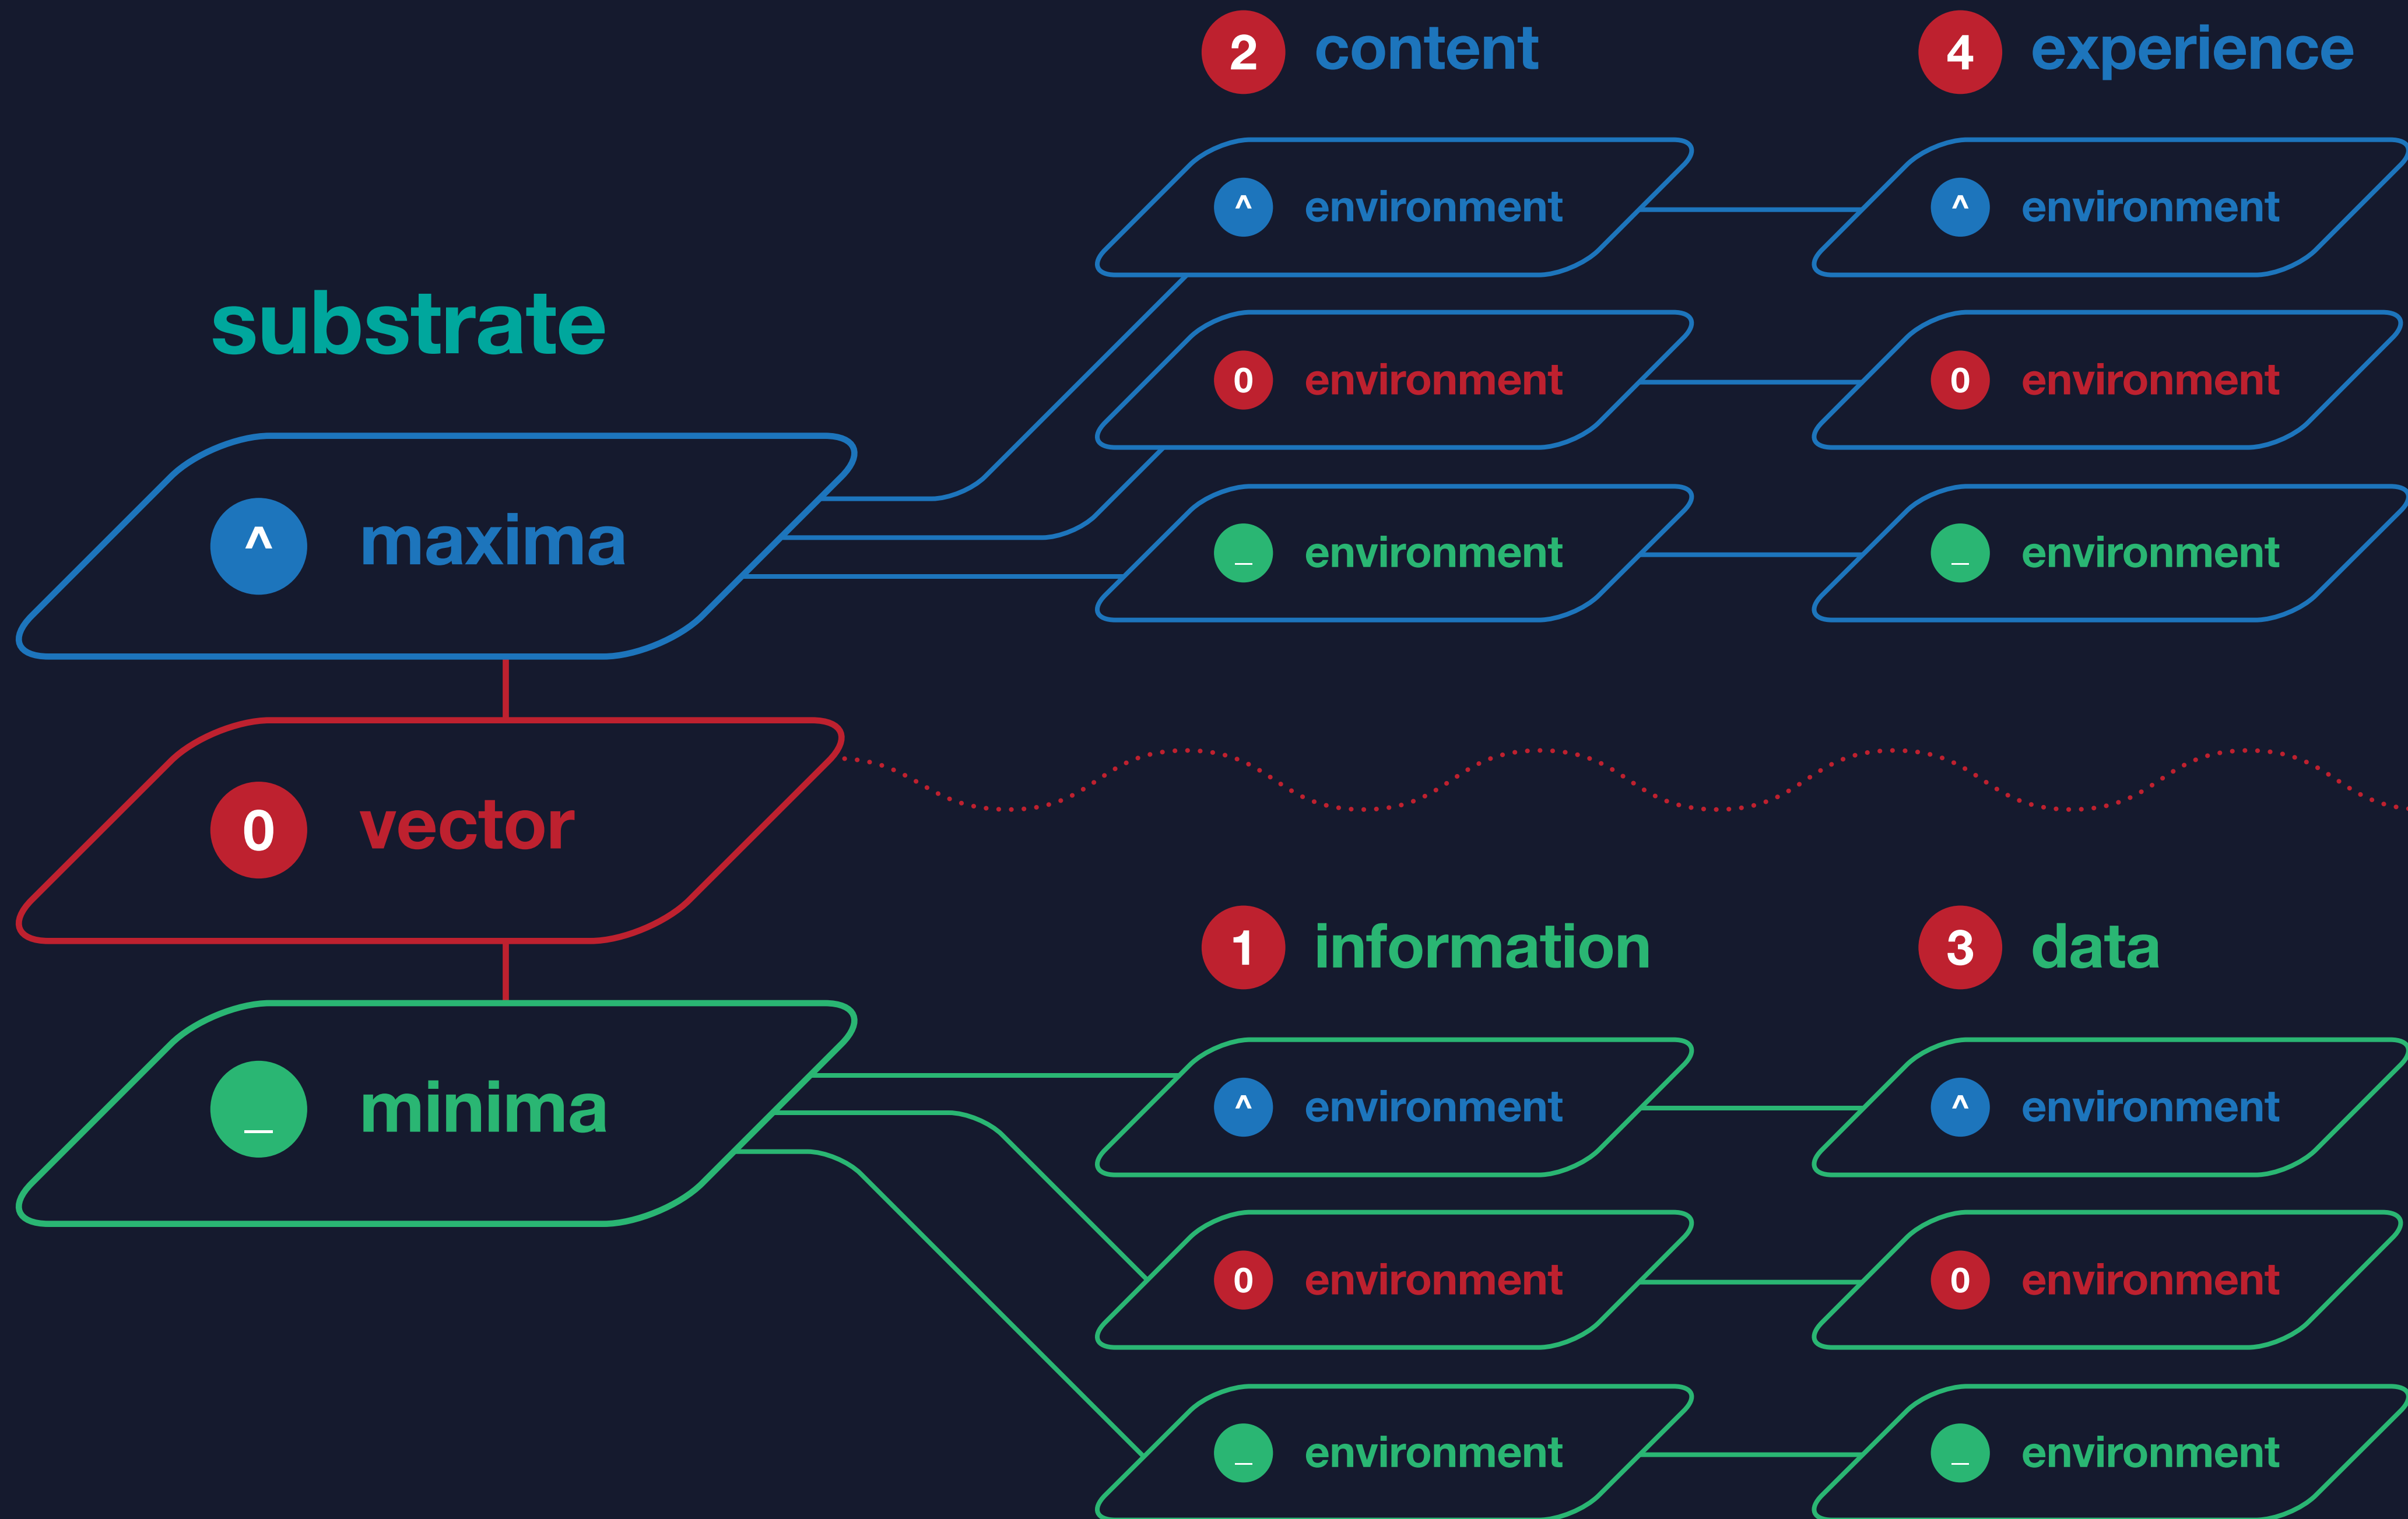

0

turquoise Z is a coordinate axis of **projection**
being **perspectives** as a **dimension**

low and high amplitudes (minima and maxima)

environment substrate splay

collaborative techniques (distributed embodiment)

organism and environment cybernetic perspectives

hypercosmix

- ^ content
- ^ psychology
- ^ **visionary**
- ^ care

^ variable

thoughtformer

- ^ experience
- ^ art
- ^ **artist**
- ^ love

encodement

- _ information
- _ science
- _ **realist**
- _ **curiosity**

_ technique

voxelz

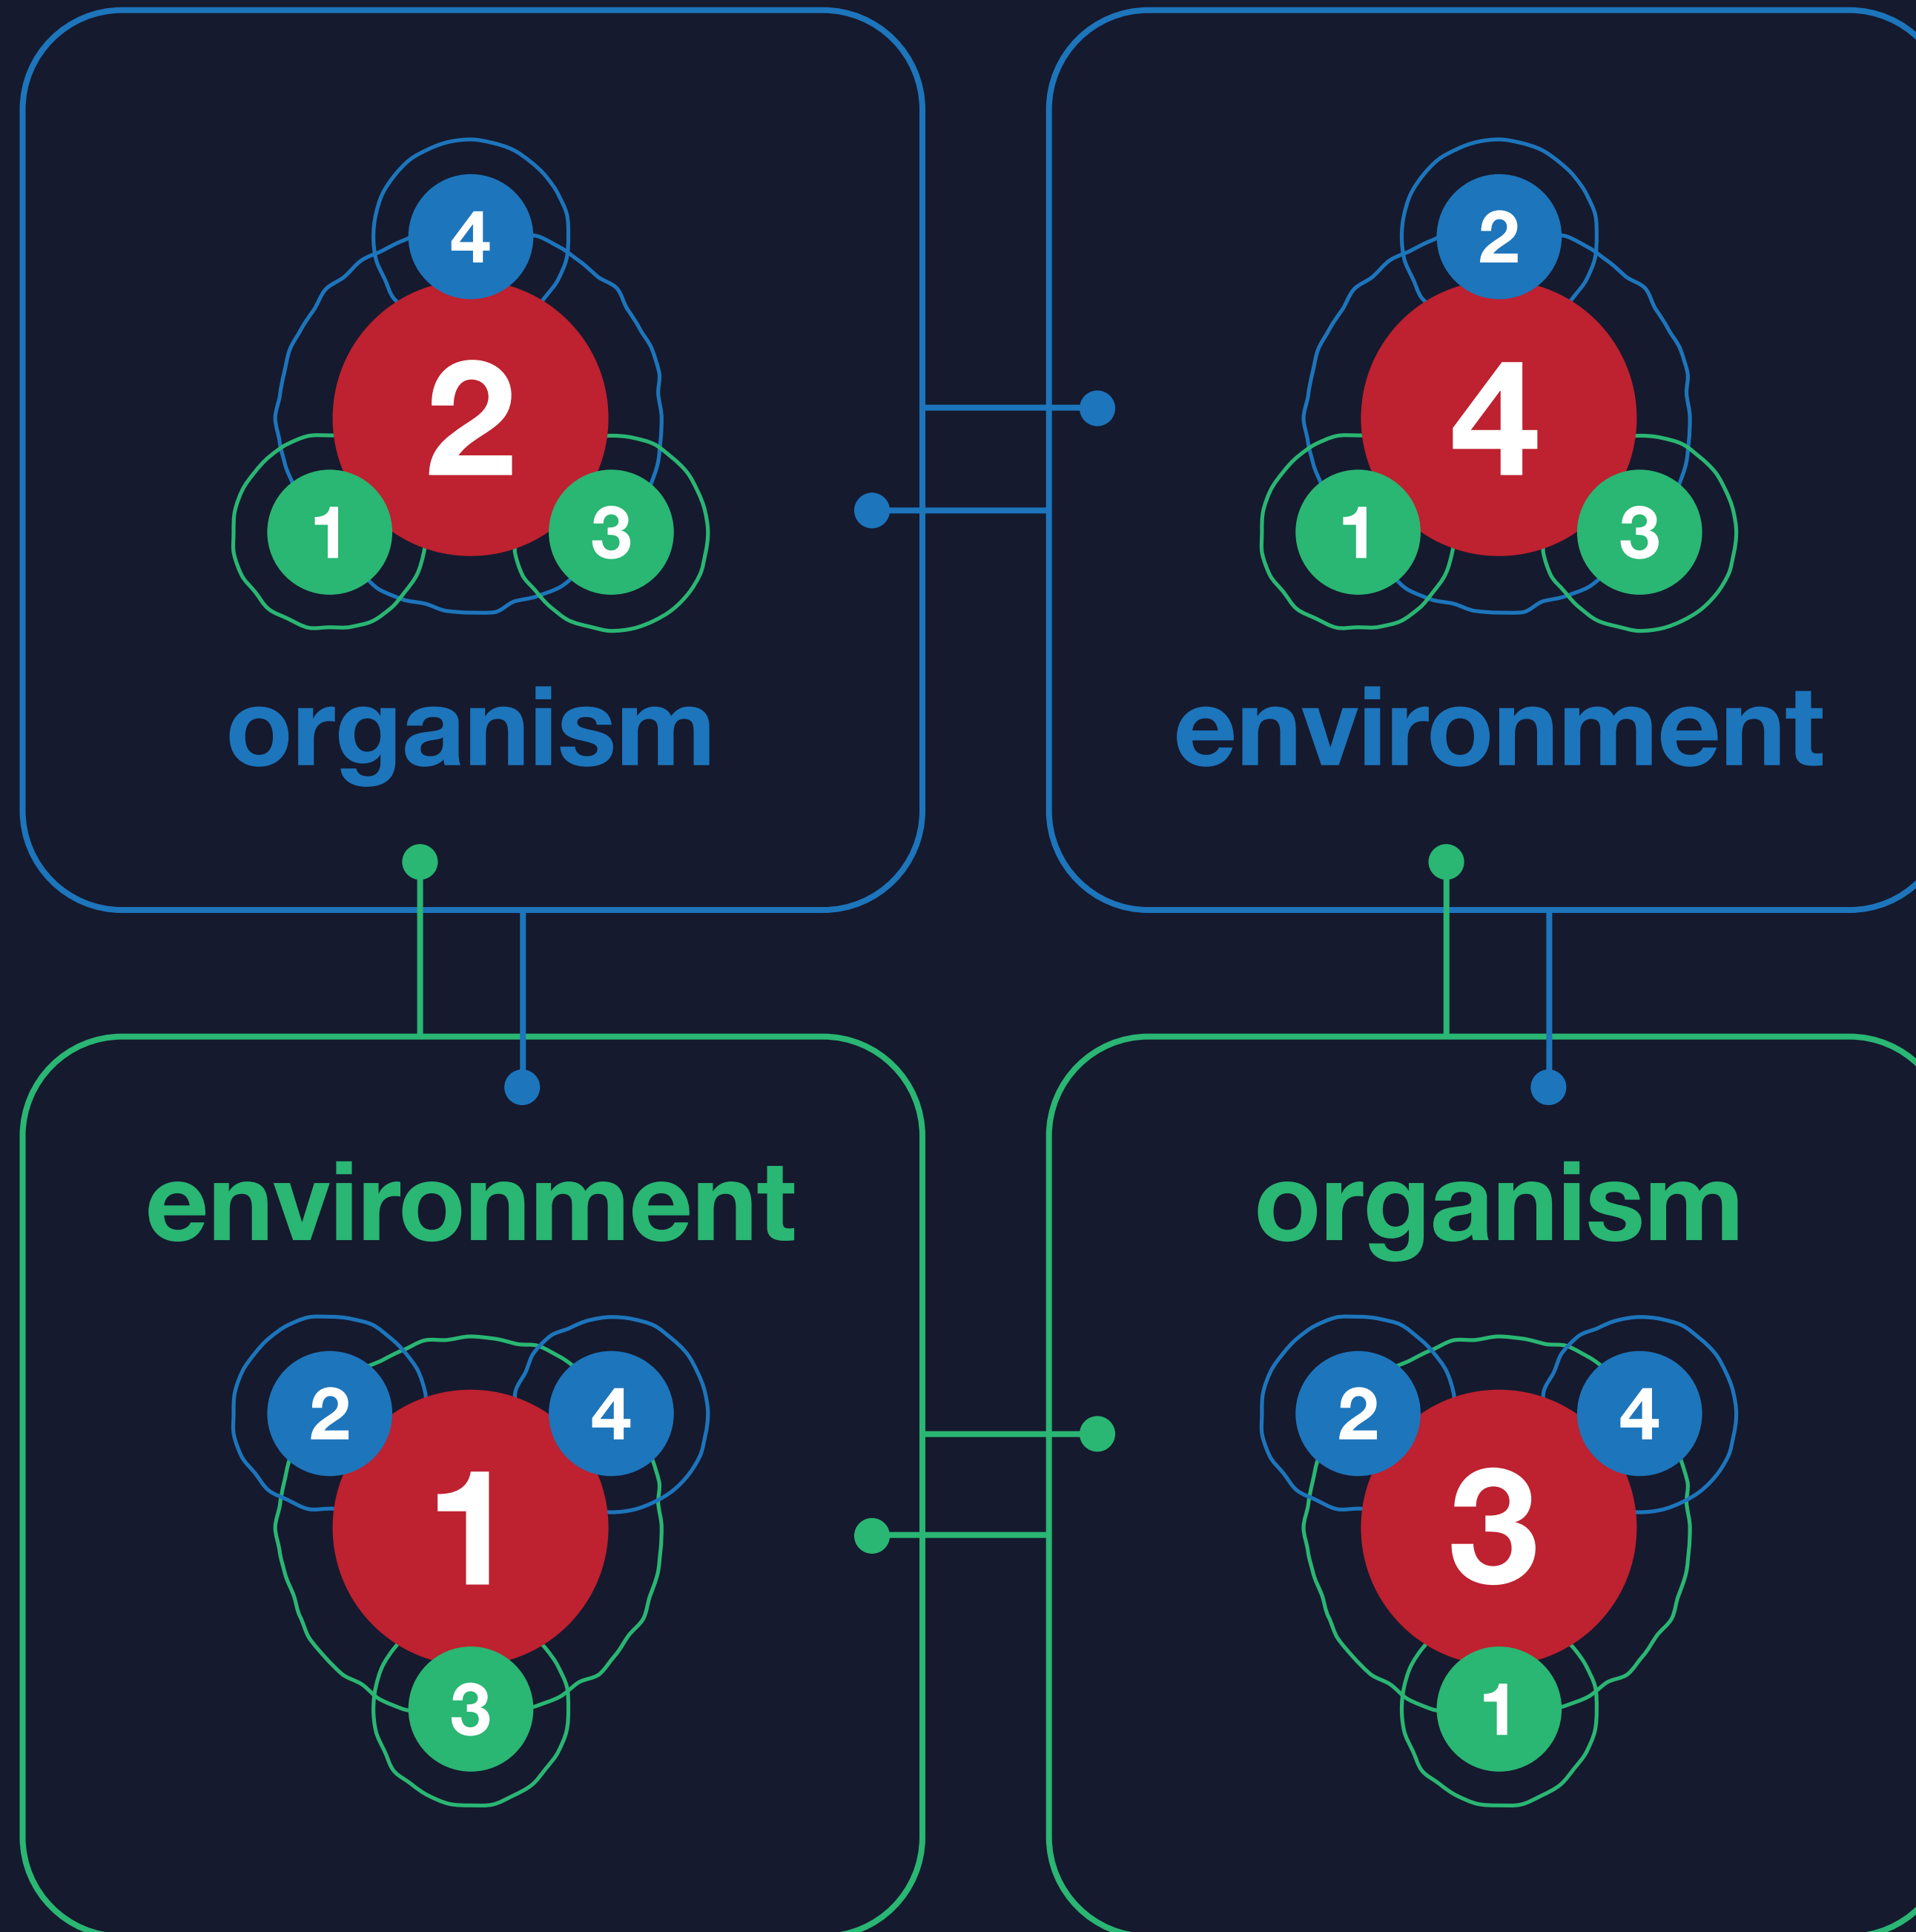

- _ data
- _ philosophy
- _ **critic**
- _ **guidance**

_ fluctuation

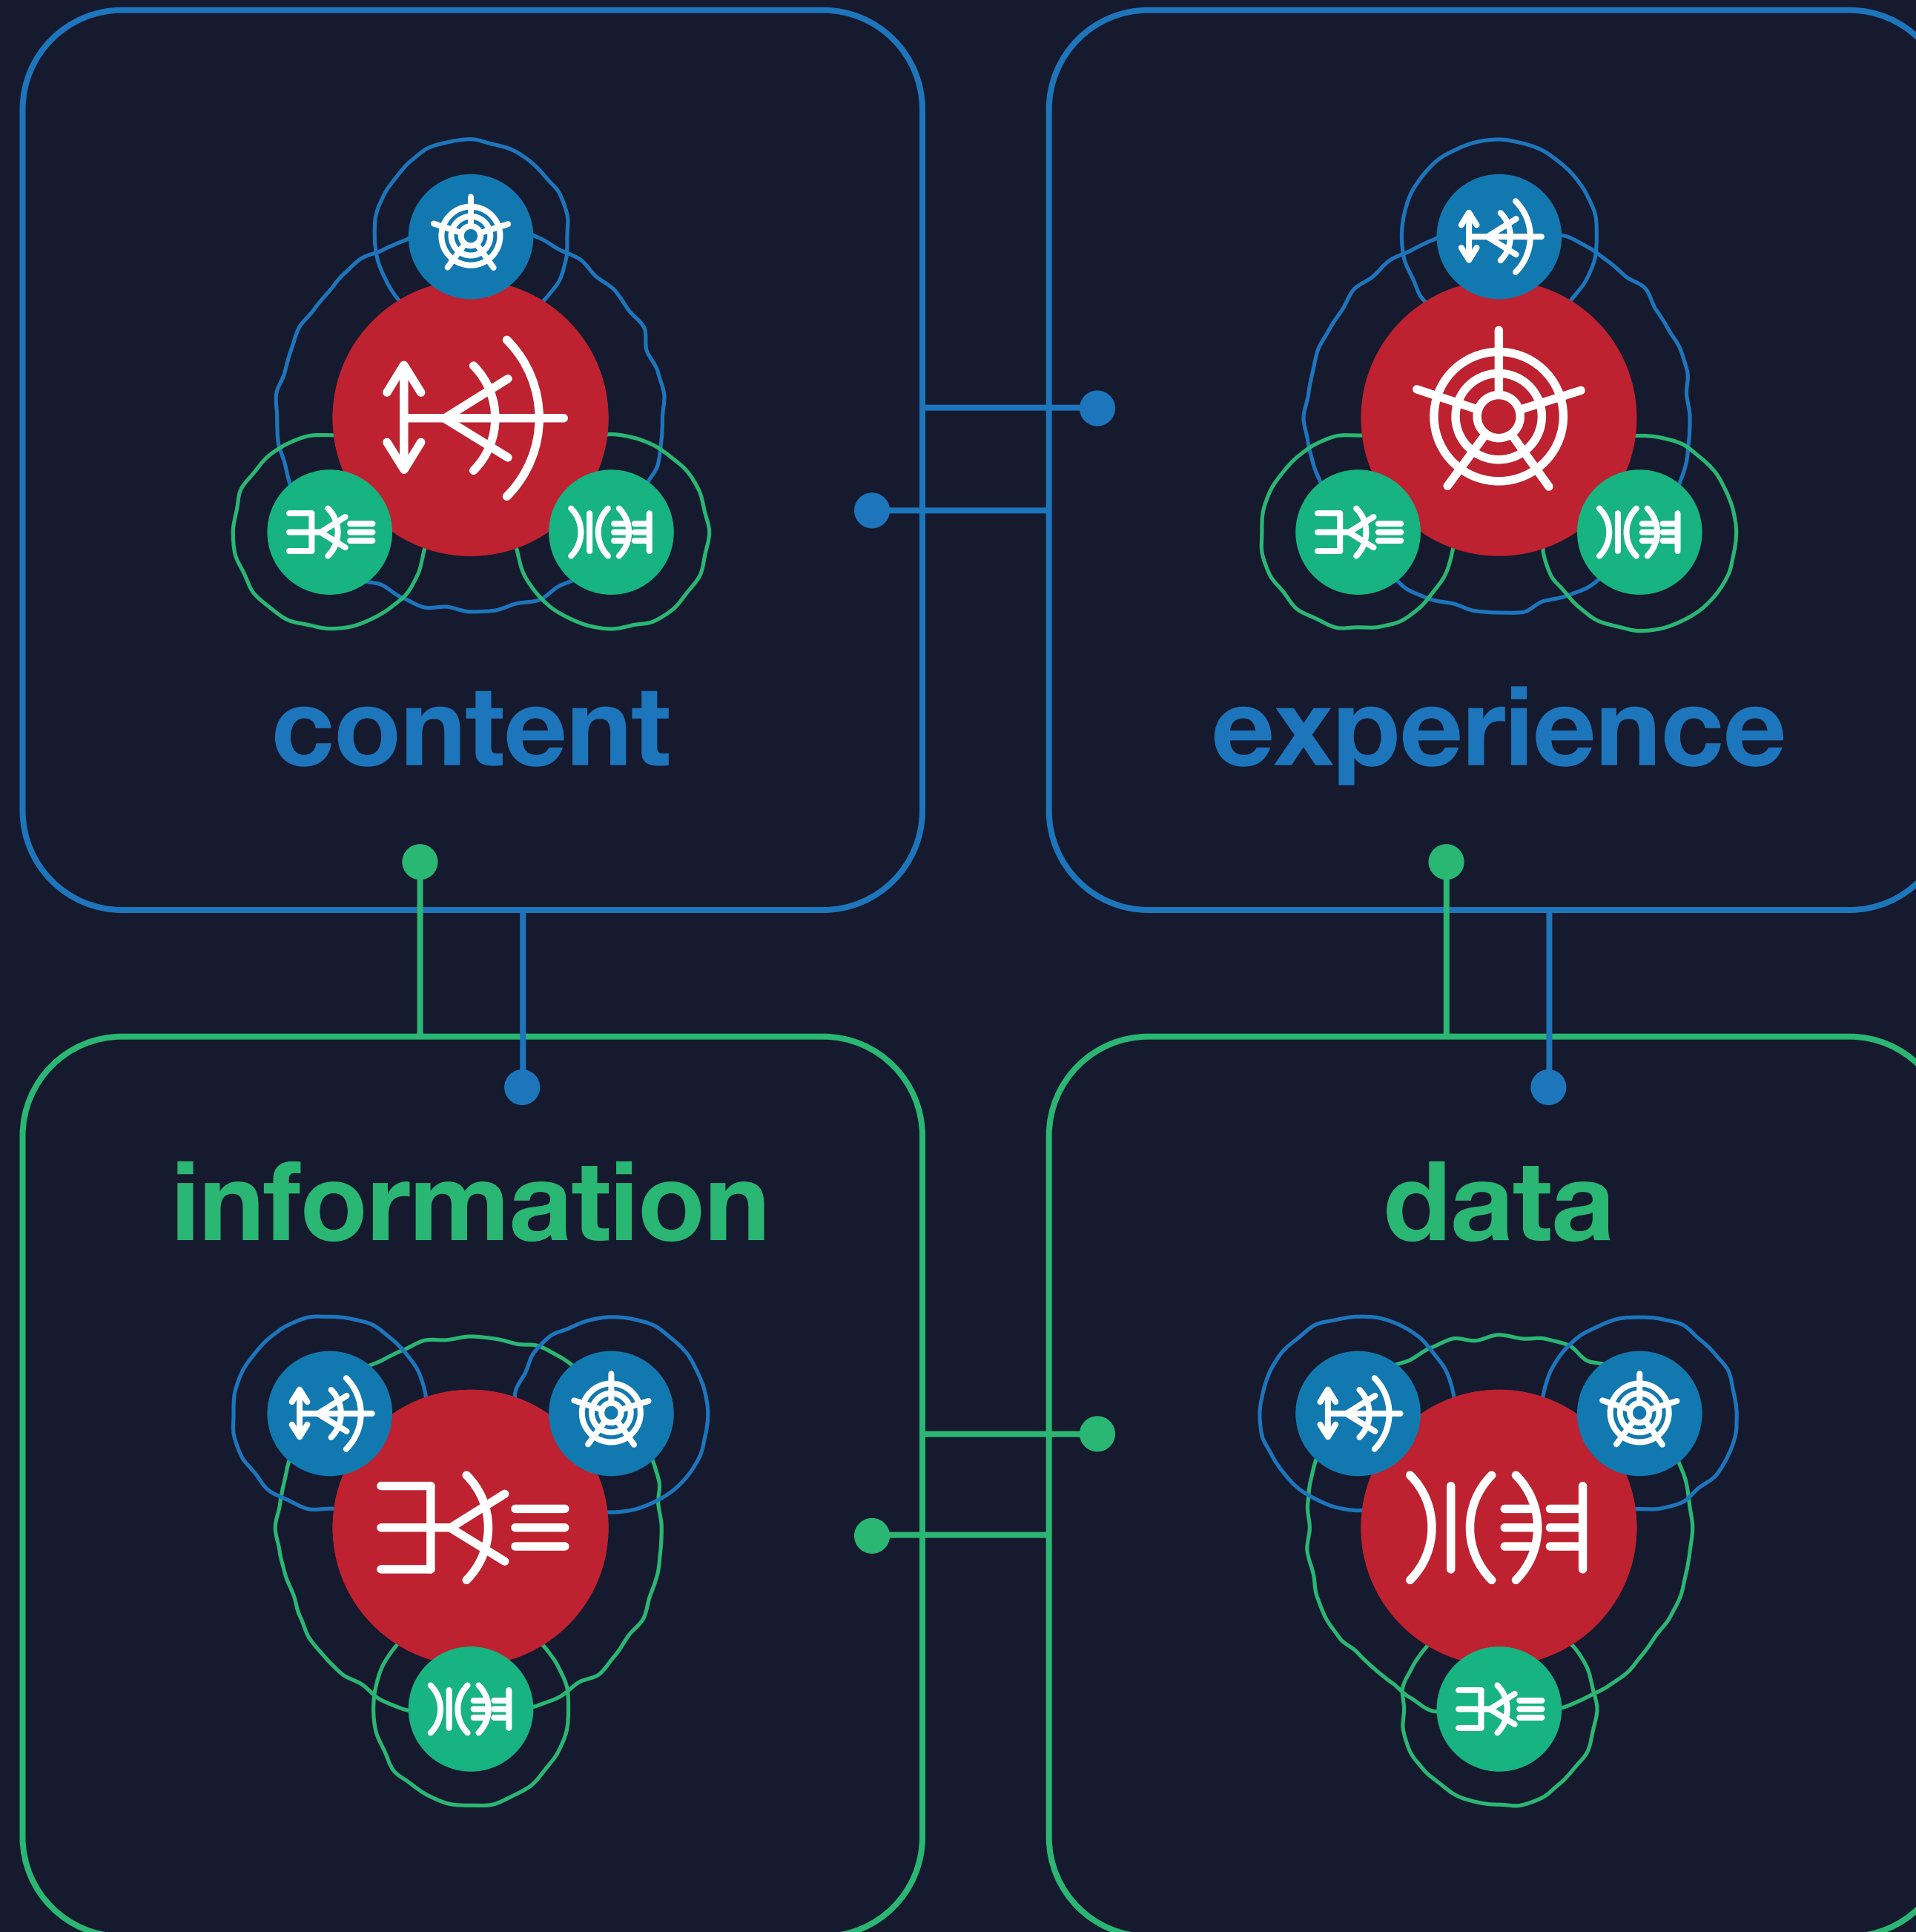

organism and environment quadrants

triplet interaction basics

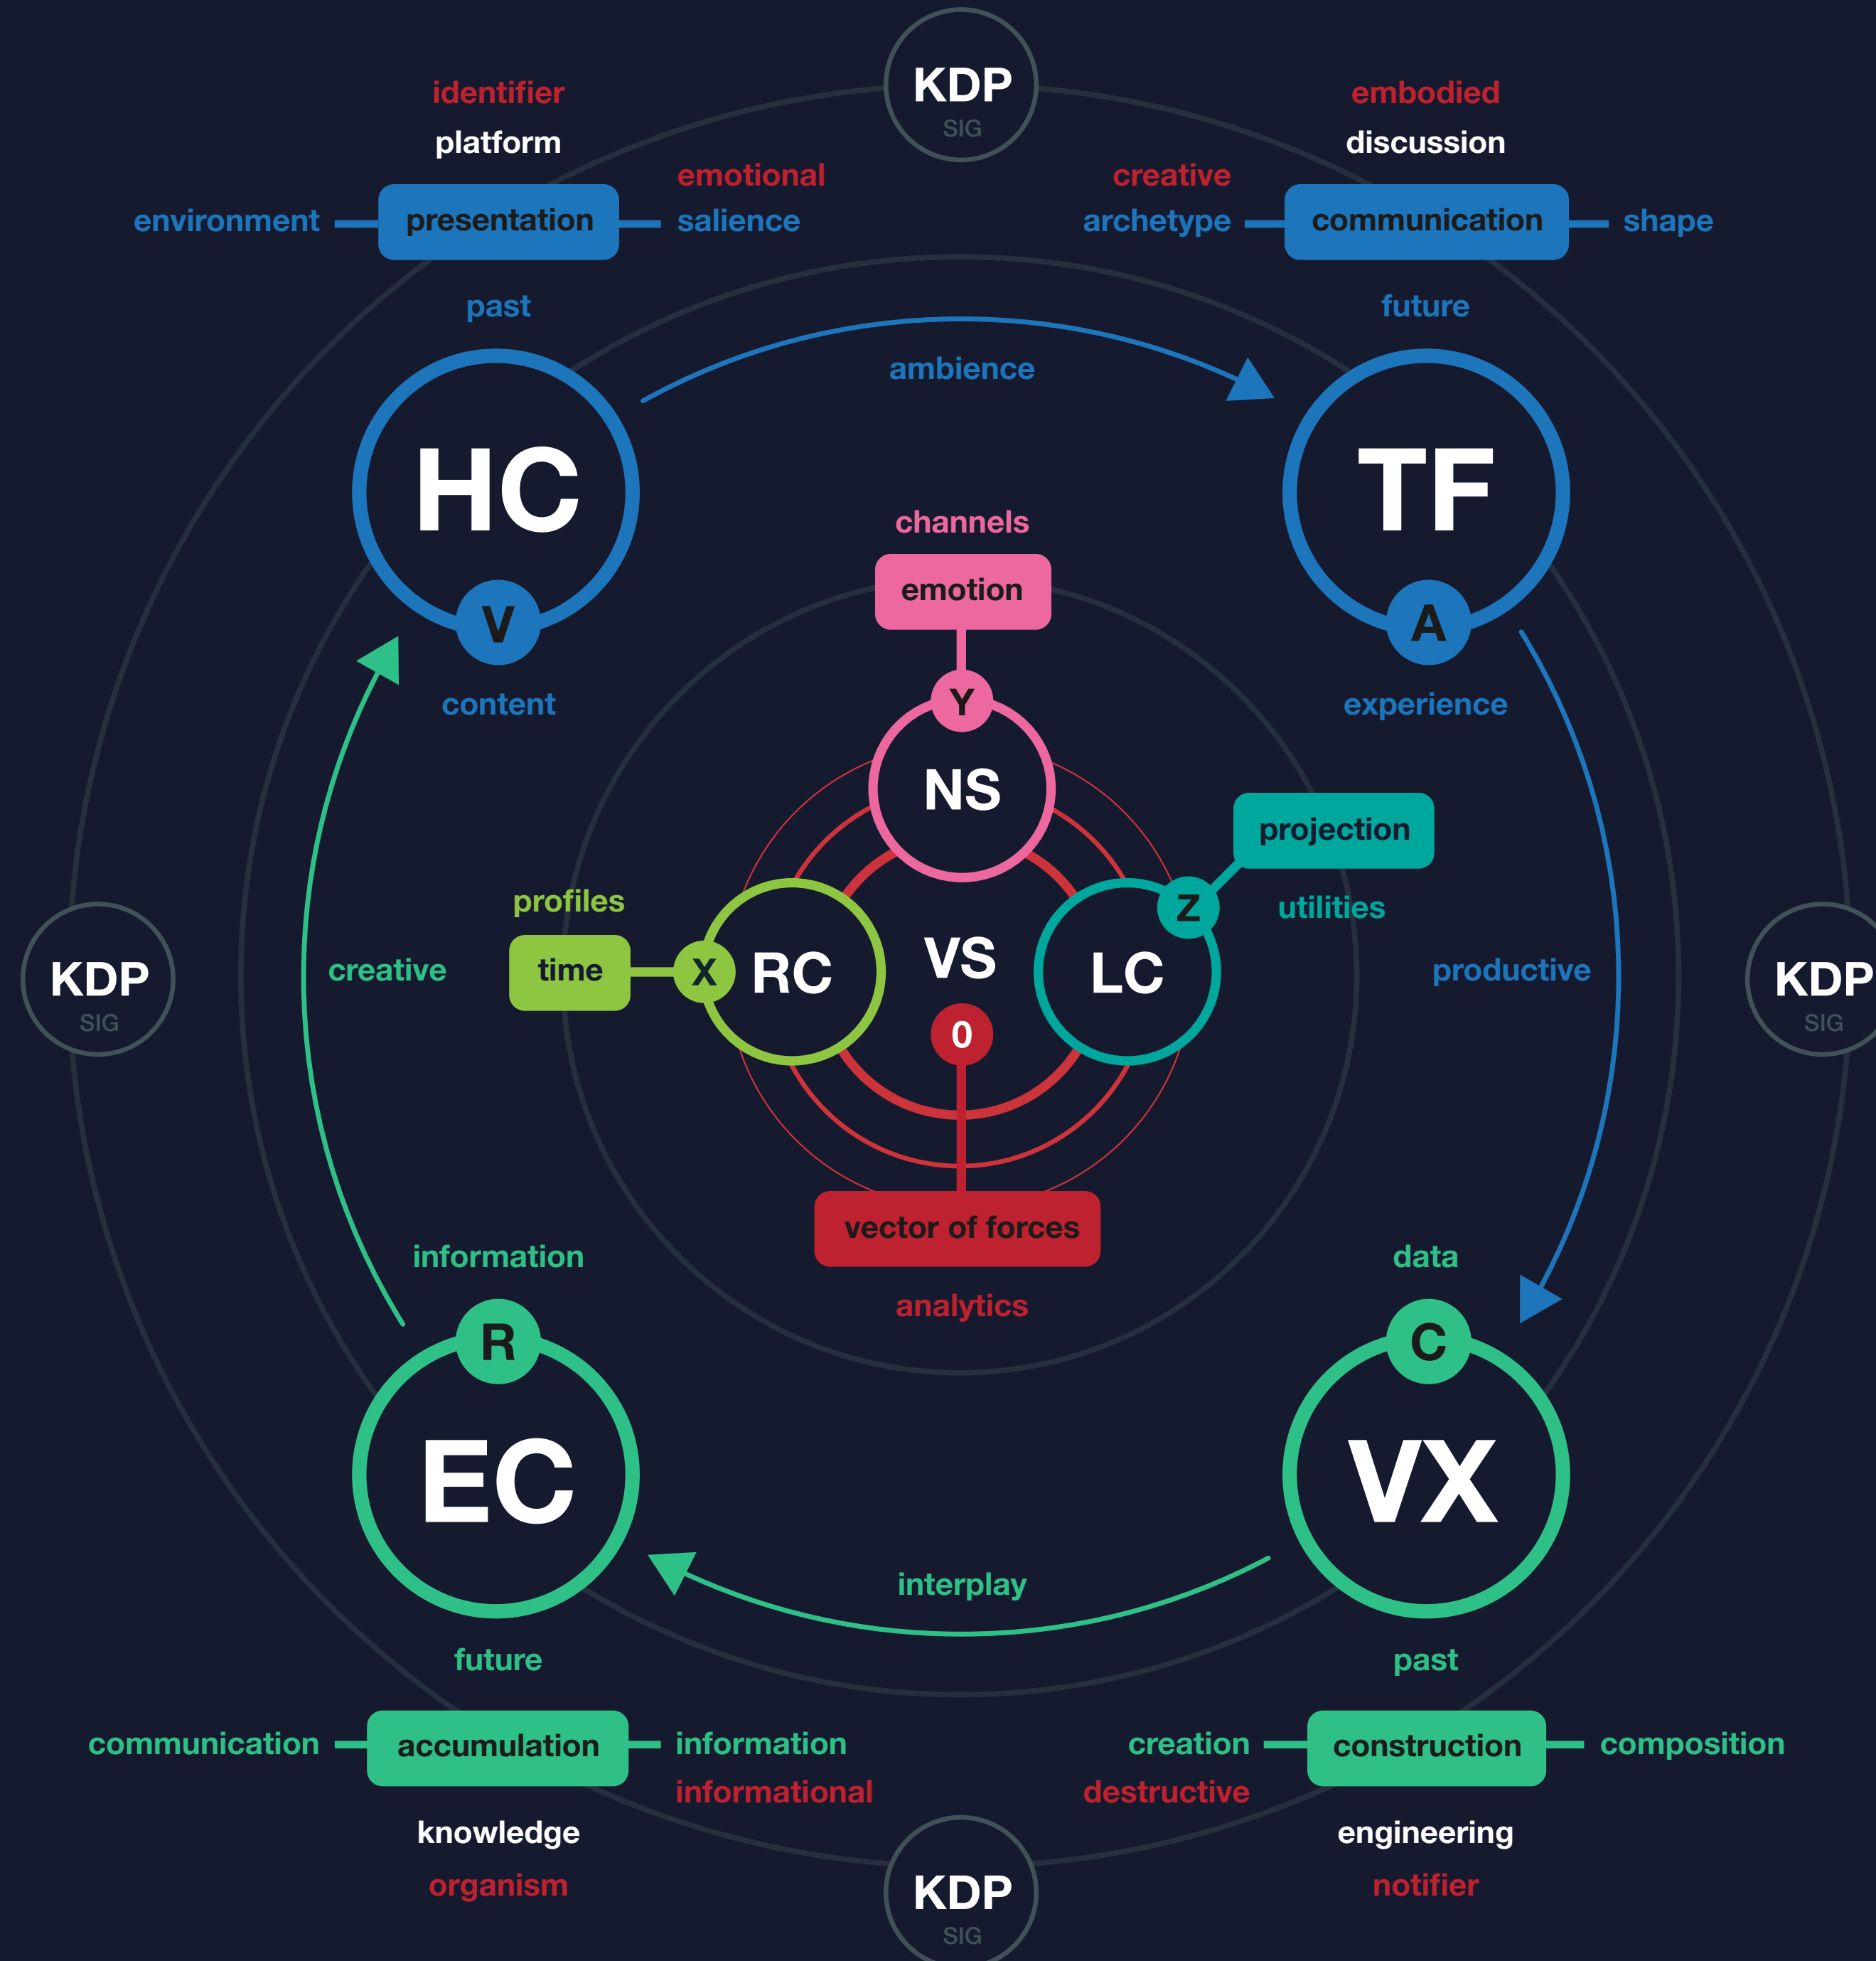

organism and environment quadrants

triplets as personas of metaconstructs basics

interactions building intelligence (wisdom flowcycle)

karmic system embodiments distributing presence

_ micro coordinates

- 1 0 vector normalisation
- 2 X frequency multiples
- 3 Y neuronal multiples
- 4 Z cellular multiples

_ micro amplitudes

- 1 R realist information
- 2 V visionary content
- 3 C critic data
- 4 A artist experience

^ macro coordinates

- 1 VS vectorsplay
- 2 RC resonancecore
- 3 NS nervesynapse
- 4 LC livingcellular

^ macro amplitudes

- 1 EC encodement
- 2 HC hypercosmix
- 3 VX voxelz
- 4 TF thoughtformer

vector of forces

triplet decay value of discovery basics

Z

thrivability

time

effort and momentum

emotion

emotion and passion

projection

force and expansion

time vector of forces

triplet decay value of recognition basics

X

recognition

persistence

sight

balance

conflict

* dimension

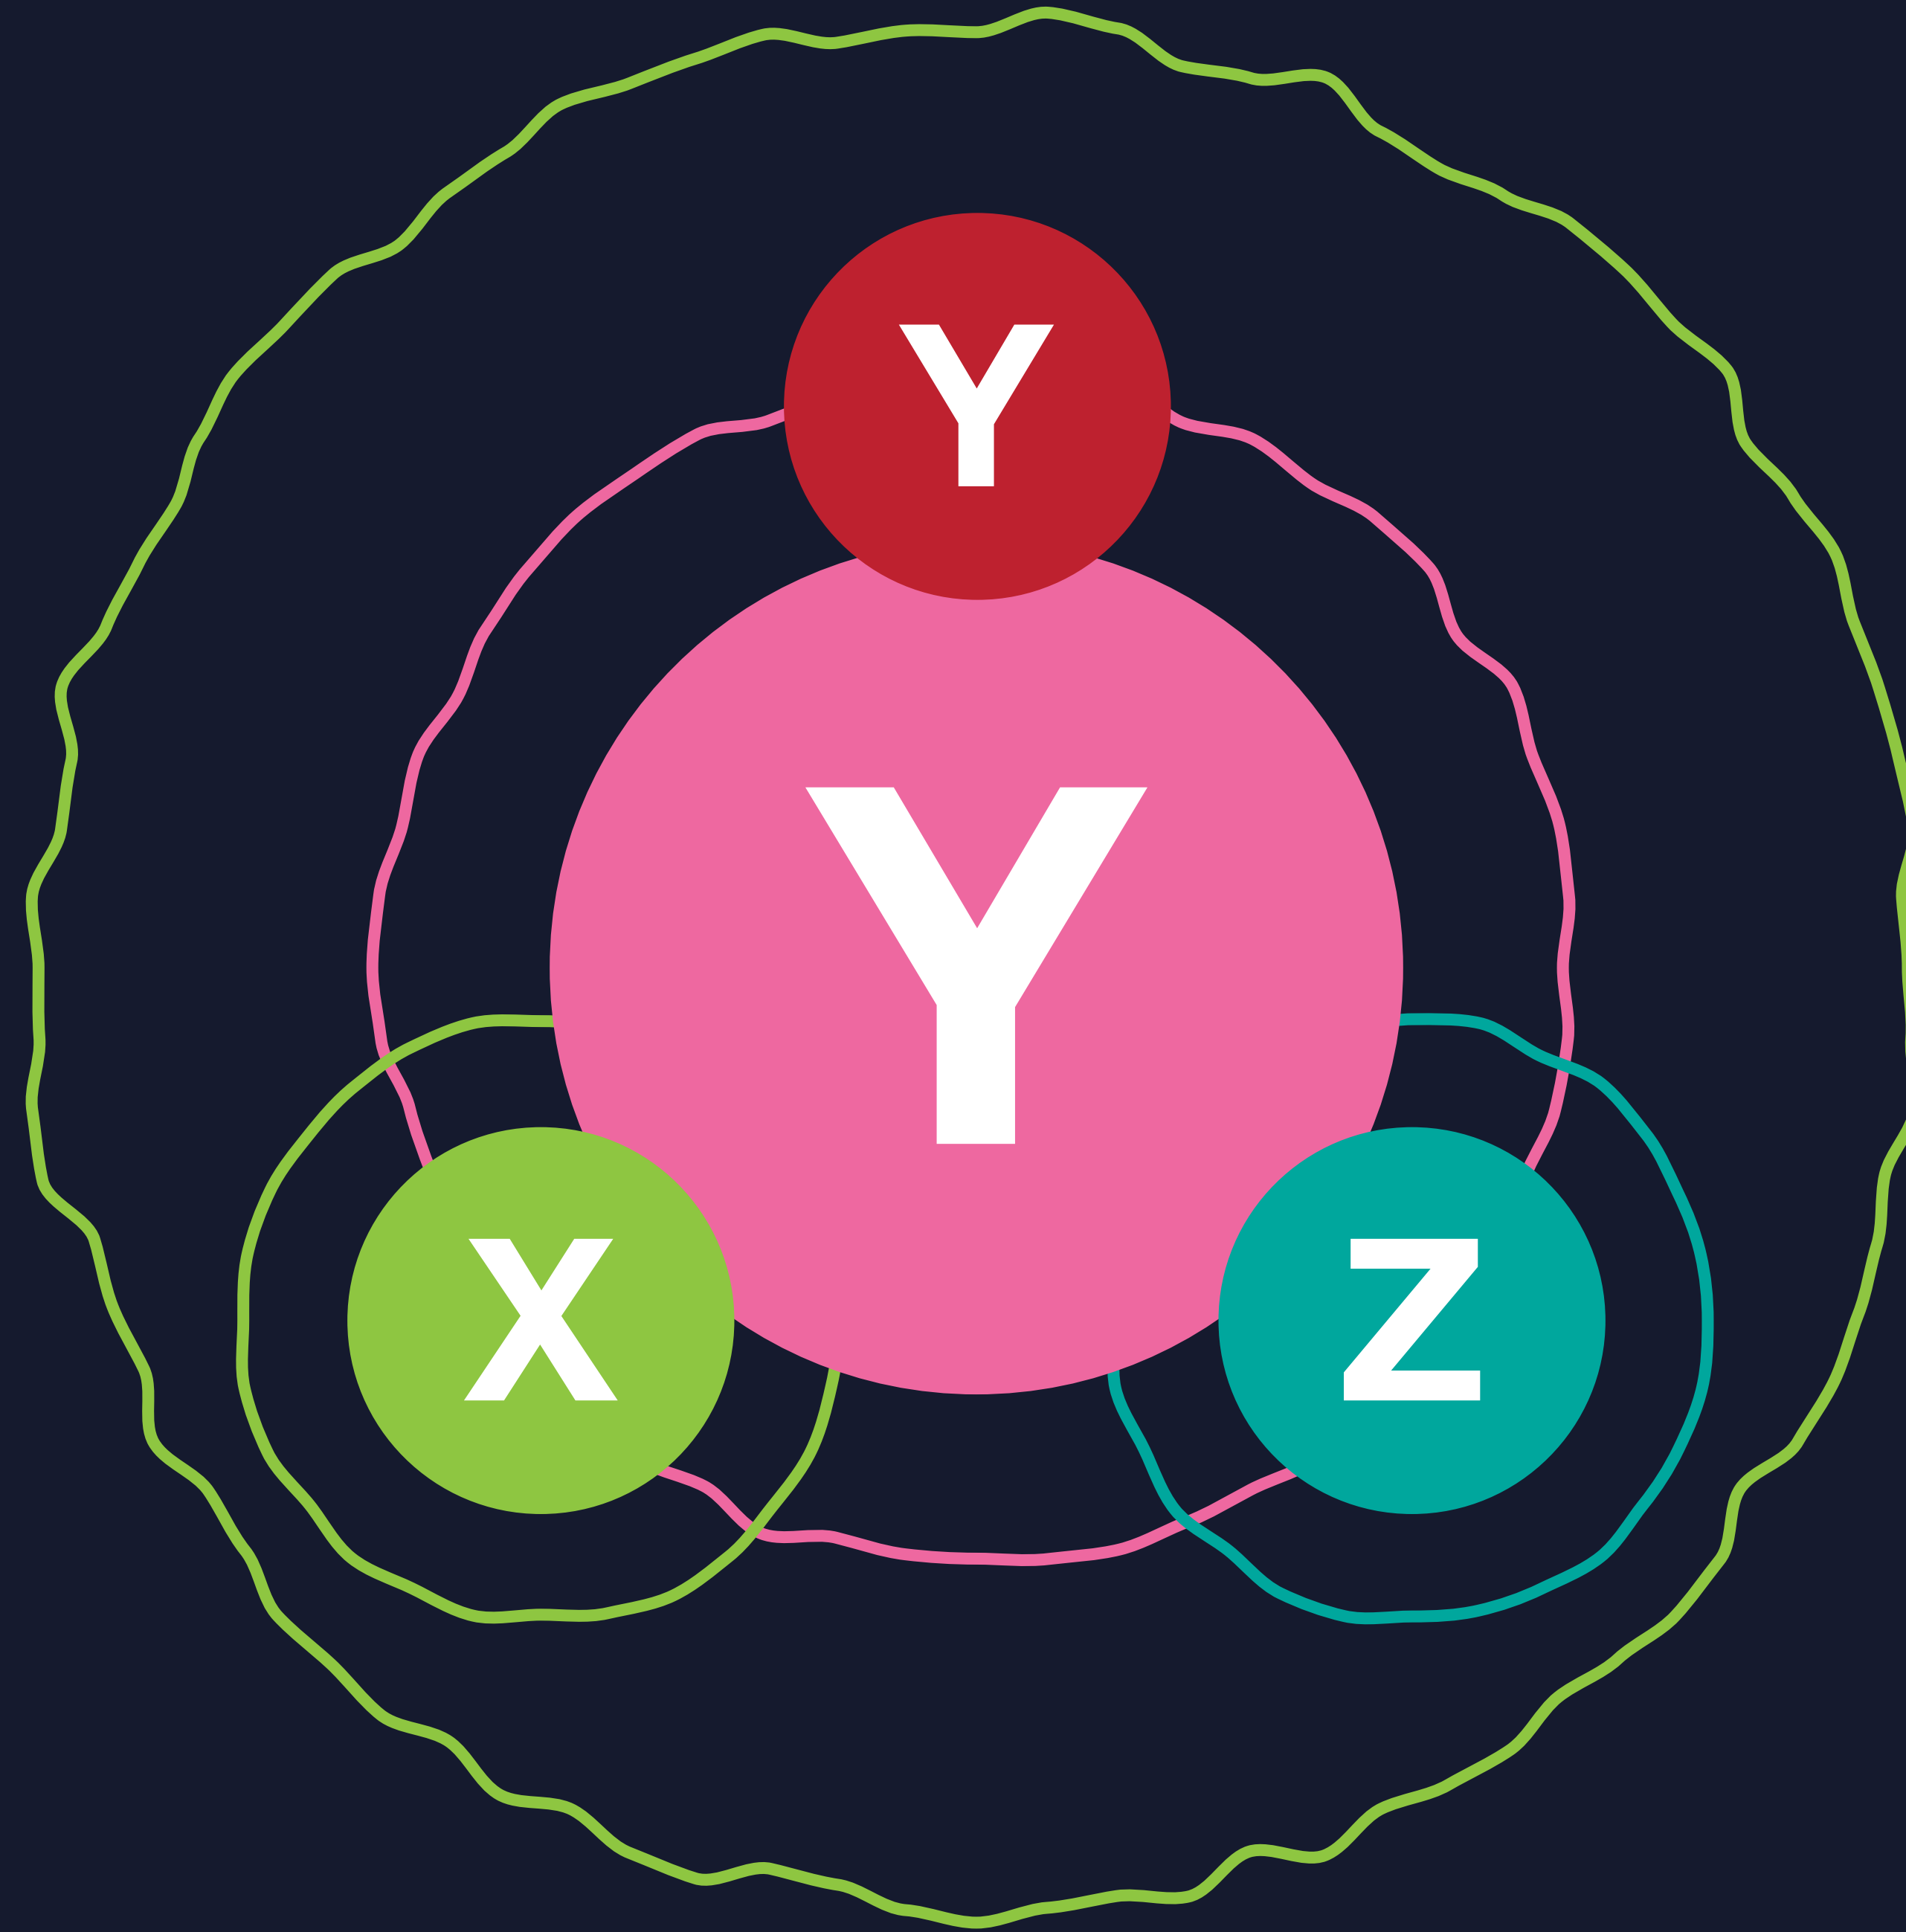

emotion vector of forces

triplet decay value of purpose basics

Y

- purpose
- intention
- unintention
- requirement
- occurrence
- * identity

projection vector of forces

triplet decay value of discovery basics

Z

discovery

delivery

possibility

participation

fusion

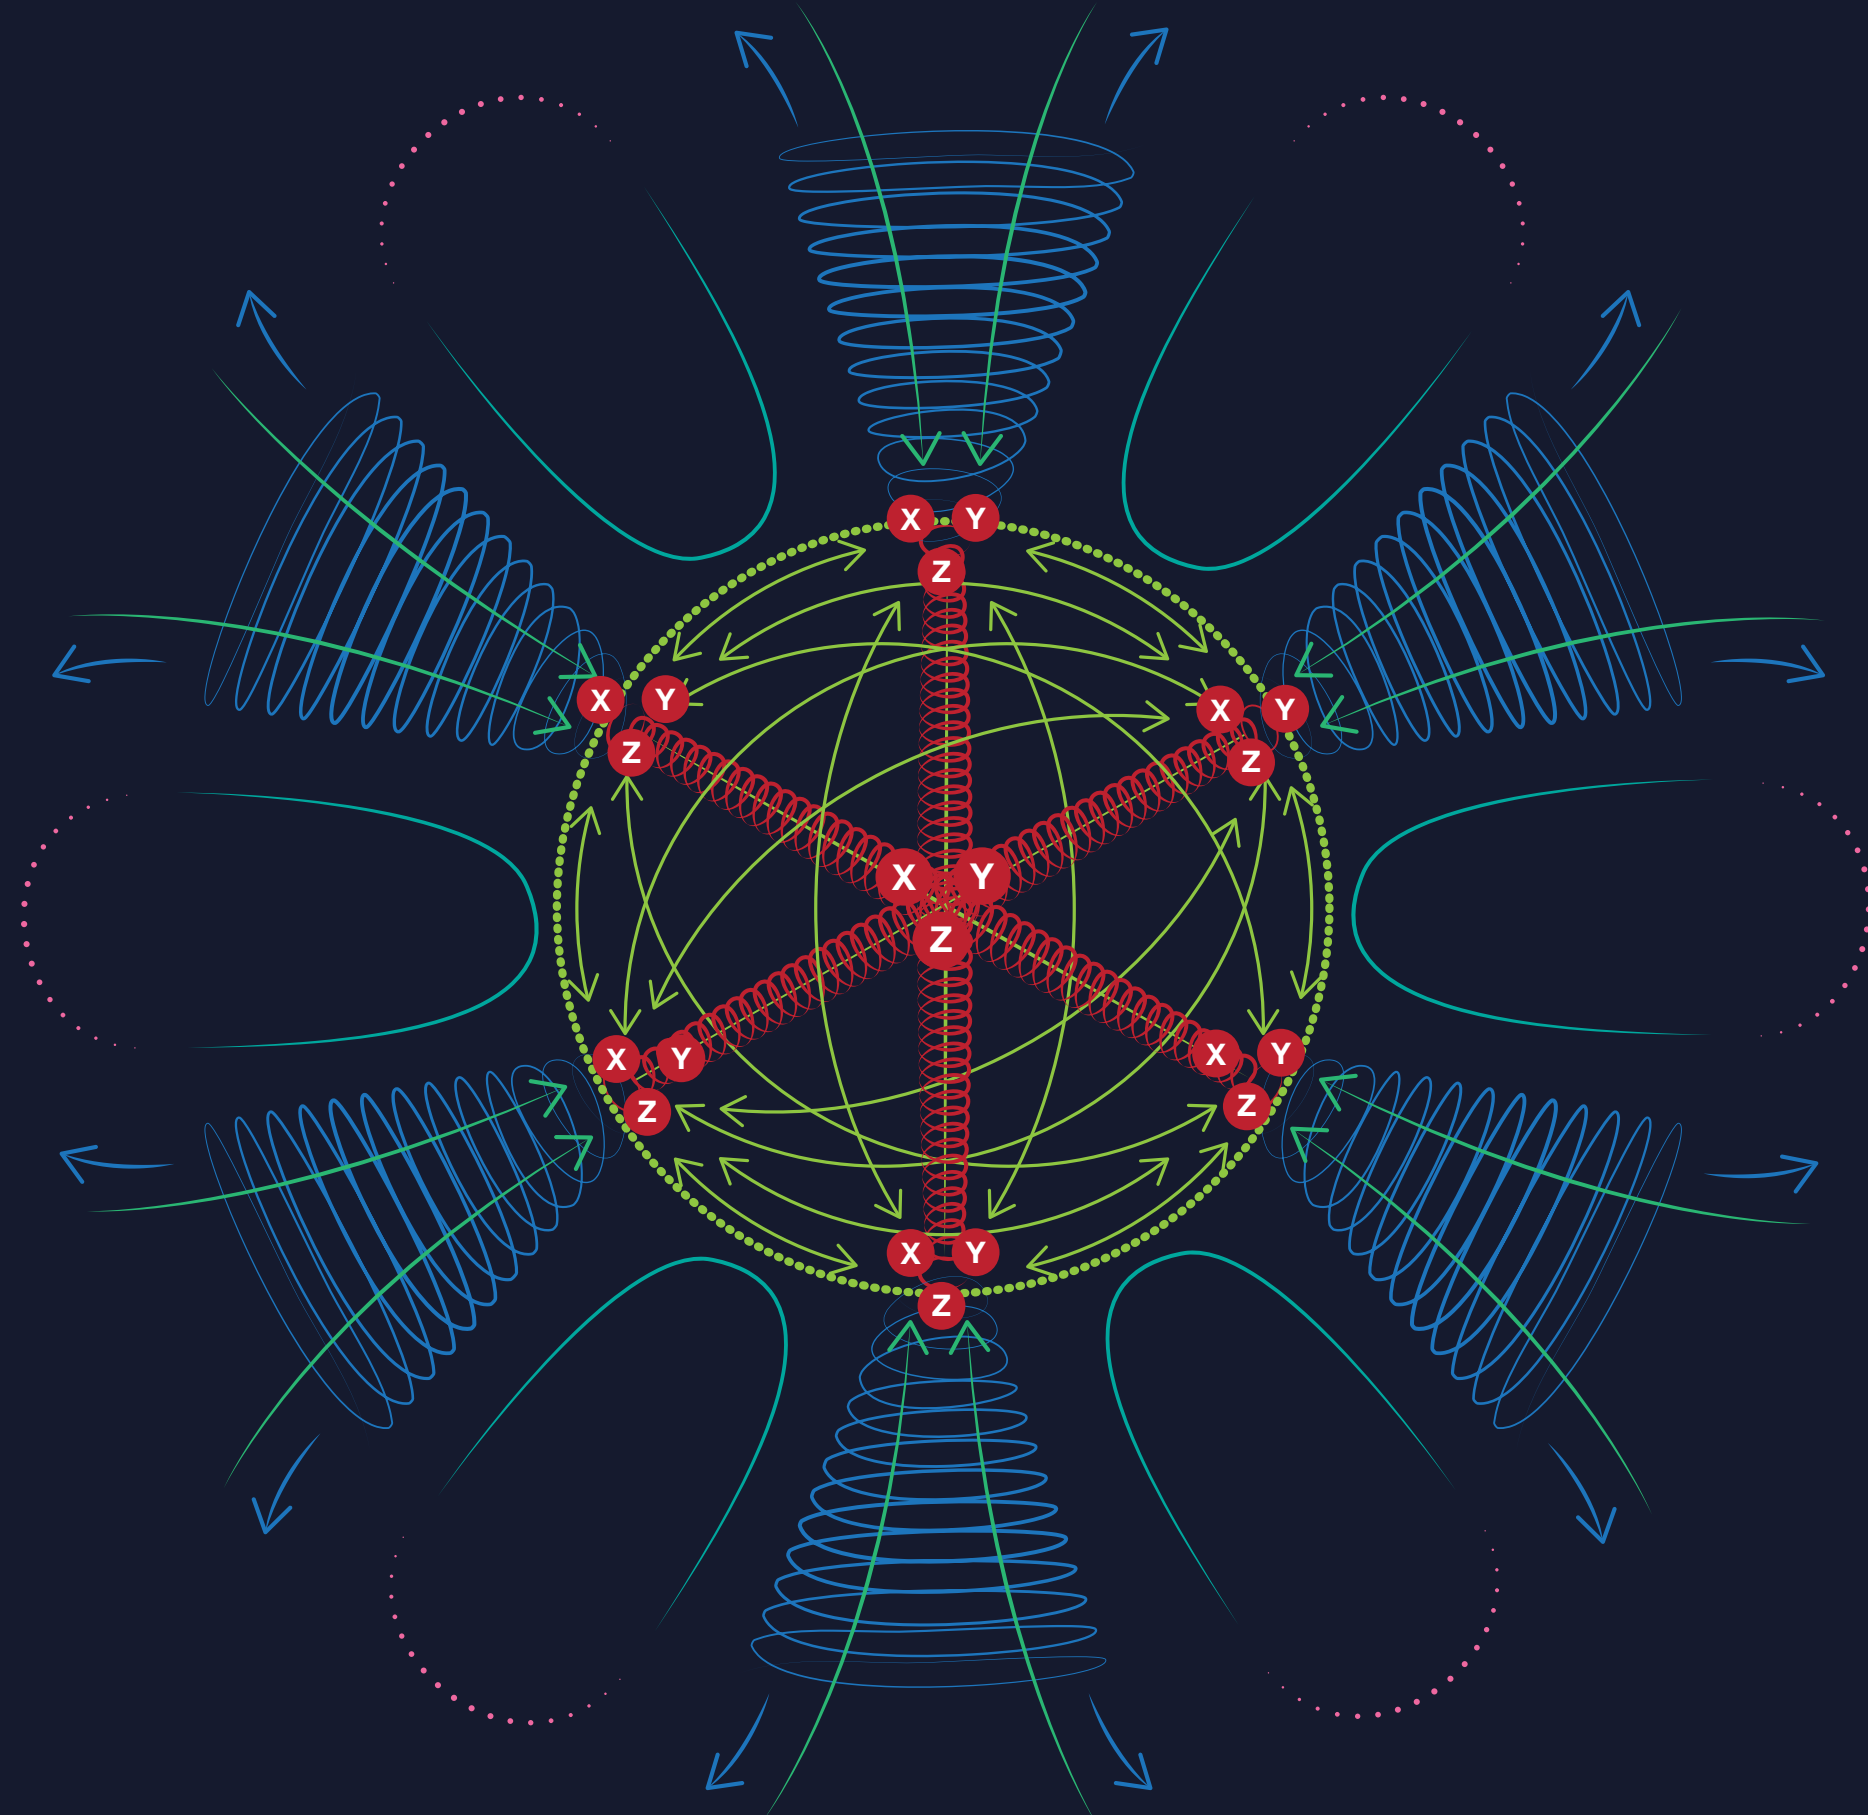

* process

hyperparameter foundations (time)

cybernetic flowcycle symbiosis through the biota of time

X

X as **time³** is to **speculate**

operations as **engine[^]** of **components_**
are **instructions**

flow **do this** on **foundation** of
speculation for **action** as **time**

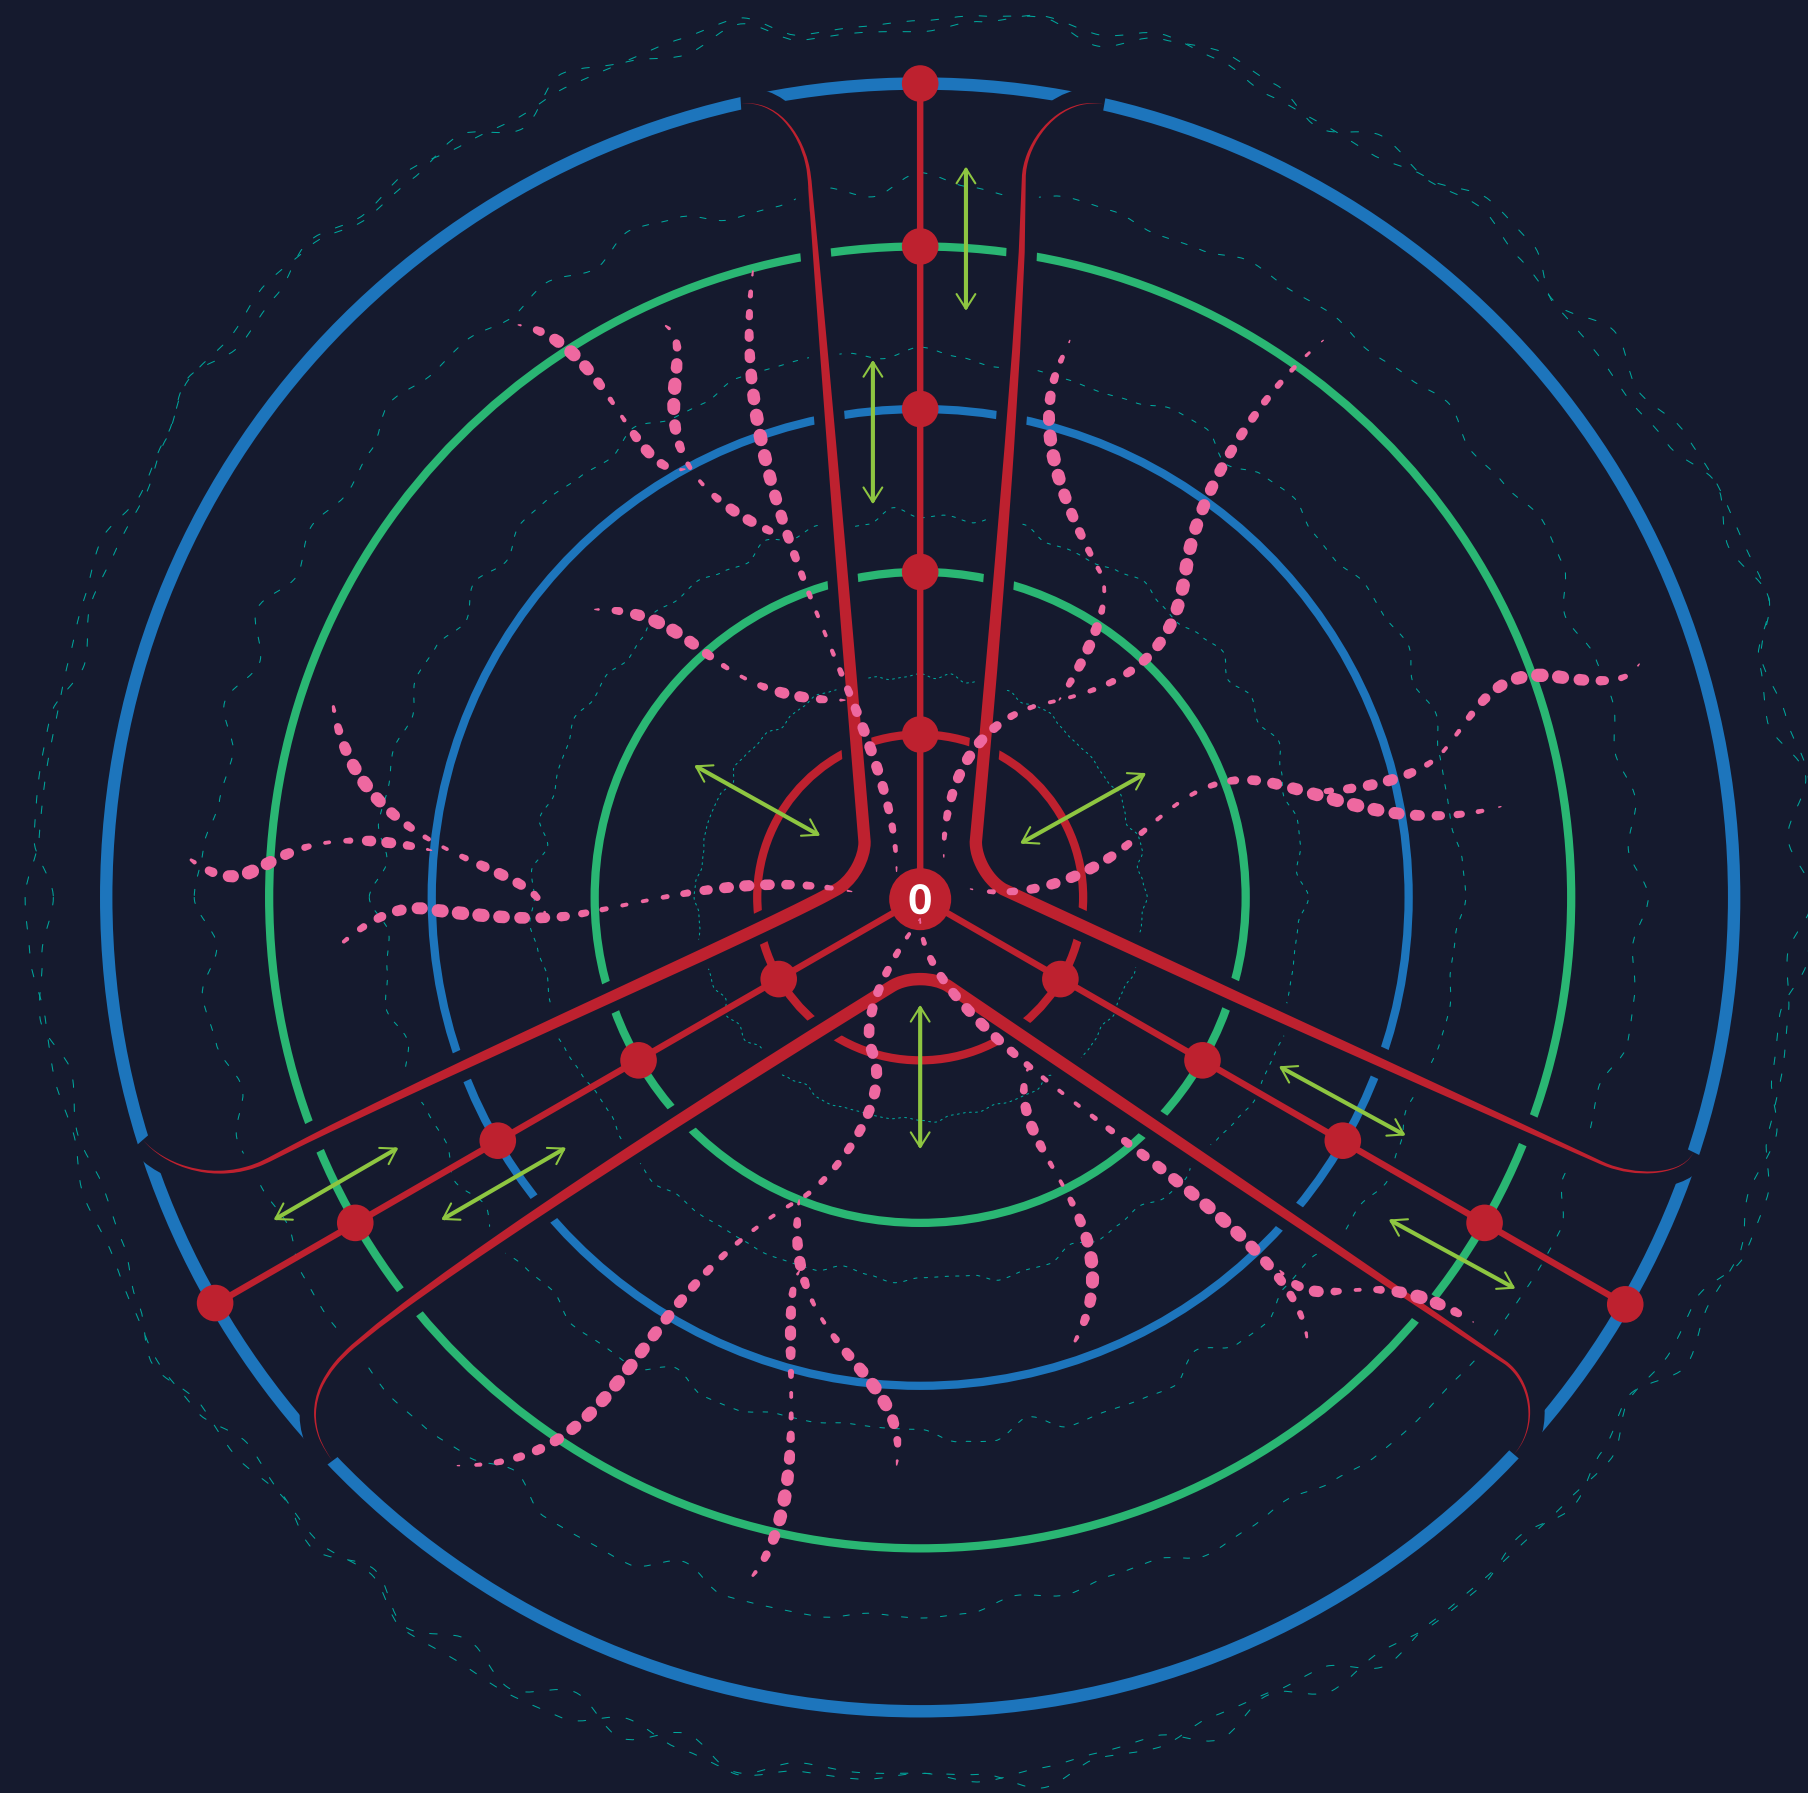

events as **input_** of **resonance cores**
are instructing **frequency multiples** to
participate actions on **output[^]** of **value³**

hyperphysics as binding biota element of time

hyperparameter foundations (emotion)

cybernetic flowcycle symbiosis through the biota of emotion

Y

Y as **emotion³** is to **abstract**

dynamics as framework[^] of libraries_
are **references**

flow **why this** on **foundation** of
abstraction for decision as **emotion**

experiences as **input_** of nerve synapses
are referencing **neuron multiples** to
question decisions on **output[^]** of **value³**

hyperneurology as binding biota element of emotion

hyperparameter foundations (projection)

cybernetic flowcycle symbiosis through the biota of projection

Z

Z as projection³ is to explain

utilisations as interface[^] of interactions_
are **controls**

flow **build this** on **foundation** of
explanation for creation as **projection**

perspectives as **input_** of living cells
are controlling **cell multiples** to
construct creations on **output[^]** of **value³**

hyperbiology as binding biota element of projection

fluid, fractal and holographic hyperparameters

cybernetic flowcycle symbiosis distributing bindings across interactions of multiplying living structures

hyperphysics

x as time's operations

resonance core as frequency multiples

personas

operations are fluid

speculate instructions

hyperneurology

y as emotion's dynamics

nerve synapse as neuron multiples

entanglement

dynamics are fractal

abstract references

hyperbiology

z as projection's utilisations

living cell as cell multiples

metaconstructs

utilisations are holographic

explain controls

cybernetic living cell

micro to macro binding basics

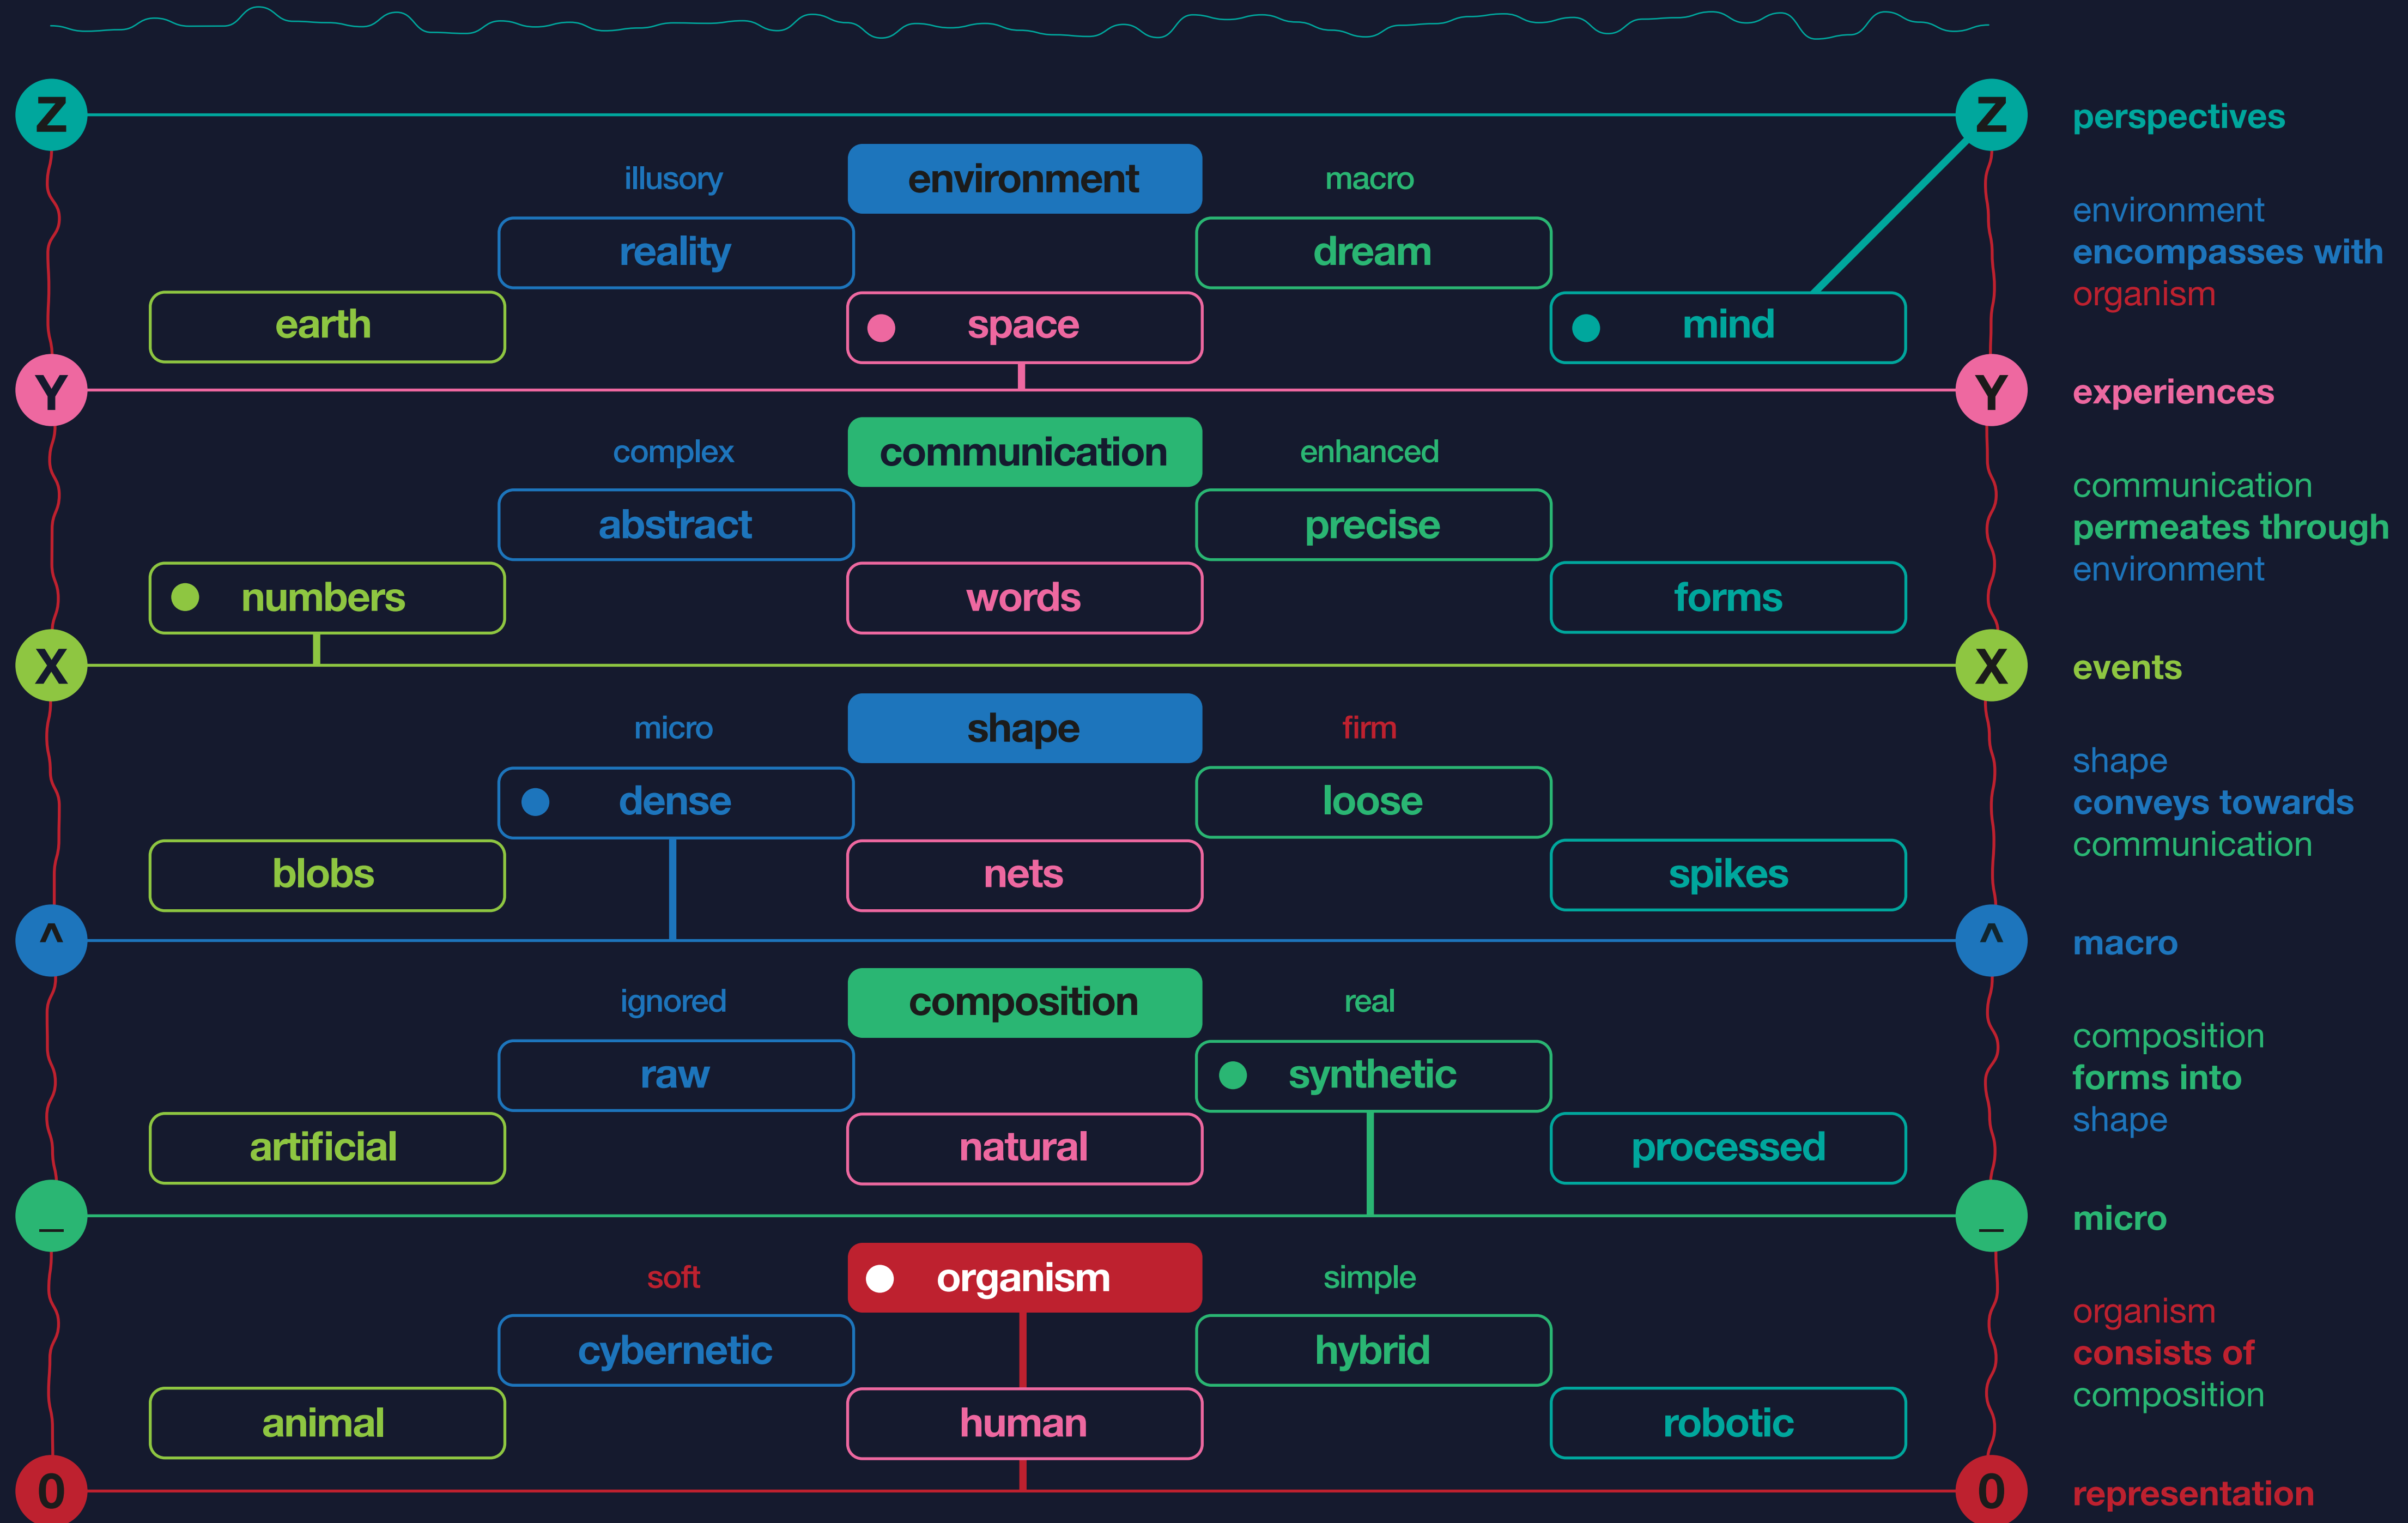

cybernetic living cell

macro to micro binding basics
